Learn Photoshop, Illustrator & InDesign

Debi Aquino

I've always been a trainer. From my early days at PIP Printing teaching desktop publishing and prepress to franchisees, to doing live classes at the local adult schools, and now... online training.

I've been a California accredited teacher for over 20 years teaching Photoshop, Illustrator and InDesign. I'm an Adobe Certified Expert In Photoshop & InDesign.

My education is in Graphic Design & Visual Communication from UCSB and my commercial printing training was from the corporate headquarters of PIP Printing, the original quick printer franchise.

As a self-employed graphic and web designer for 25 years, I teach from a "real world" perspective and provide tips related to working corporate or freelancing your work.

I love technology. I love ink on paper. I love mixed media crafts and photography. Photoshop, Illustrator and InDesign are the perfect storm for digital creation and I love sharing the capabilities and the possibilities.

Not only will I teach you the software, we'll have some creative fun. Please join me!

What do people say about Debi's classes?

I absolutely loved this class. I am a small business owner and I have already used the tools that I have learned in this class for my business. Not only did it help me make my business look better, it was also a fun process working with my new tools!

I am already using the new skills I learned in this class in my job.

Debi Aquino is by far one of the best teachers I have taken Photoshop from here. Great coverage of material!

Great class, better teacher. Would highly recommend.

Debi Aquino, our teacher, is extremely knowledgeable. She teaches with energy and enthusiasm. Enjoyed her class very much and learned a lot.

This class made the Adobe apps understandable and accessible for a variety of uses. I really enjoyed the class so much; we could have kept on going for hours.

The instructor is patient and knowledgeable.

This class gave me magical photo editing skills. I can create ANYTHING.

Every example is step by step, this class was very easy to follow along as long as you know how a computer functions.

An excellent introduction to a very complex and useful program.

I'm finally not afraid of Adobe products anymore!

Yes, friendly teacher, excited about her subject, opens up worlds of information in a very understandable way.

Debi has lots of experience, yet she is able to take beginners step by step to learn the process.

The instructor is very engaging, and Photoshop is fun!

I enjoy learning, and Debi makes it fun and easy to follow.

Photoshop is very complex, but we got to work on a good set of example projects and the handouts will help when doing work of my own.

Debi is a good teacher who's excited and knowledgeable.

The teacher was succinct and direct, yet willing to be patient and repetitive as necessary.
